

Version 01

Standards for Mulch

- All planting beds shall be mulched with a natural product such as wood chips, pine needles, etc, and must be in natural earth tones, and not colored as in green or blue.
- Decorative stone may be used if approved by the ACC and blends naturally with the landscaping. Bright or contrasting colors will not be allowed.
- Artificial products such as shredded tires, Astroturf, etc will not be allowed.
- Any change to previously approved landscape mulch must be approved through the ACC.
