

## **ACC Standards for Small Pet Containment Areas**

**The objective of outlining these standards is to provide guidelines to homeowners anticipating the installation of a containment area or pet run on their property. Pet enclosure areas will be permitted if approved by the ACC and must meet the following conditions:**

- **Pet area must not exceed 5 feet by 10 feet in area**
- **Pet area must be located in the rear yard and not in the side yard**
- **Pet area must meet setback requirements**
- **Pet area must not be visible from the street or adjoining homes, to include rear view such as on lake or similar lots**
- **Pet area will require a sign off from adjoining neighbors**
