Subject: SPRING CLEAN UP

Spring is on the way and it is time for Spring Cleaning for the outside of your home. This is a gentle reminder to take a look around your beautiful home in Lock's Landing, and take a quick inventory. We have provided a check list to determine what may need to be cleaned up around your home. This is an effort to help us all keep in compliance with the Declaration of Covenants and Restrictions and avoid letters and fines in the future. This is an attempt to continue to elicit your cooperation with the compliance of the Locks Landing Covenants Guidelines.

1. Clean roofs
2. Trim shrubs
3. Replace mulch
4. Reduce clutter around the house
5. Remove weeds from the beds
6. Remove weeds from driveways
7. Power wash driveways to remove excess dirt
8. Remove and replace dead trees on property

Be sure to check the Locks Landing Web site for new guidelines for statuary and mulch substitutes. You may have to apply to ACC for something you were not aware of.

Thank you in advance for your cooperation and your continued help in keeping LOCK'S LANDING A GREAT PLACE TO LIVE.
